

DOP

EAVES VENTILATION BIRDSTOPPER

Product made of high quality Polypropylene, UV radiation and weather resistant. The use of these elements effectively protects from birds and large insects getting under the roof slope.

The holes in the carrying strip enable fastening with the use of nails or screws.

DECLARATION OF PERFORMANCES	
Material	Polypropylene
Length/ Height	1000 mm (+/- 1%) / 60 mm or 100 mm (+/- 3%)
Dovetailing (male/female)	Yes
Resistant to UV rays	Yes
Traction strength / stretching at break	25 MPa / 7%
Density	0,910 g / cm ³
Elasticity	1300 MPa
Rupture modulus	1200 MPa
Tensile-impact strength (PN-ISO 8256 + AC:1994)	> 600 kJ / m ²
Vicat softening temperature (PN-93/C- 89024 met. B)	> 75 °C
Color	Brick Red (RAL 8004), brown (RAL 8017), black (RAL 9005).
